

Technical Rider (Spinning rigg)

- A fixed truss with a WLL of min 1000 kg - Hight to rigging points: 6.50-7.50 m

- Stage size: 4x6 m

- Safety mat: 2m x 4m x 40cm

- Warm up space and dressing room

- Get in: aprox 1 hour to rig up.

We need 30 min to warm up and light and sound check on the trapeze

before opening the doors.

- Get out: aprox 30 min to rig down

- Music: plug in for computer/Ipod to your sound system - Lights: basic

- If you are pulling up the truss from the ground, it would be ideal to rig our equipment before sending it up. Otherwise we need access or a way up to the truss.

- We prefer food to be provided, otherwise tell us in advance. We are vegetarians and gluten intolerant.

If your venue can not provide these rigging possibilities or if you have any questions, contact us and we are happy to come up with a solution.
